

NOTICE

Transit Passengers:

In light of COVID-19, the Tahoe Transportation District (TTD) is monitoring the situation and staying current on information from the local public health agencies, state Departments of Health, and the Centers for Disease Control (CDC).

TTD is monitoring ridership during this time and may implement service changes, as needed. Transit is an essential service for many and there are no plans to cease operations; however, recommendations and orders are changing rapidly.

It is likely that transit service will be adjusted due to staff shortages and very low ridership. TTD would like to know which routes and runs are most important to you and the best way to contact you if service levels change.

Please email planning@tahoetransportation.org or call (775) 589-5500 option 2 to participate in a brief questionnaire.

Follow us on social media or check the website at tahoetransportation.org for the latest updates.

Thanks for taking transit and take care!
