

<u>Questions</u>	<u>Answers</u>
On page 4 under, inquiry 2.a. asks if bidding vendor has reports that are customizable. Can TTD describe what sort of reports TTD looking to create?	In past software experience, the need for custom reports emerges as new requirements are established by funding agencies. There are no known custom reports necessary at this time, but TTD would like to know how the bidder would handle a custom report request.
On page 5 under inquiry 7.a.i.c, "Does the system provide the ability to identify and highlight invalid run-cutting times, routings, timepoints, and trips prior to the run-cutting function?" - Can TTD kindly provide an example of an invalid routing, timepoint, and trip?	Invalid routing could be going up a one-way street the wrong way or not following a detour. Invalid timepoints could be using stops that are not considered time points. Invalid trip could be a seasonal trip that should be deactivated for a time period.
On page 5 under inquire 7.a.ii.f., can TTD clarify the phrase "copying one route into another route"?	TTD has several routes that operate along the same roads and utilize many of the same stops. TTD would like to be able to copy portions of a route to create an additional route.
On page 6 under section "vi. Block Building Requirements", TTD asks of bidding vendors, "Can the user specify a timepoint at which a layover must occur?" - is TTD referring to mid-trip layovers? In what instances do mid-trip layovers happen (e.g. mid-trip reliefs occur due to mid-trip reliefs)?	Yes, mid-trip layover (e.g. electric vehicle charging).
On page 6 under inquiry 7.v.f., what does TTD expect to see from "labor efficiency reports"?	Some system demonstrations have offered an efficiency percentage. TTD would like to see how efficient one block combination is compared to another.
What are the approximate dates that TTDs runcuts need to be finalized for TTD's next three bids?	The next bid is at the end of August 2018; however, there are several service changes proposed at this time. The TTD Board is expected to make decisions on July 13, 2018 with an expected implementation on October 1, 2018. These decisions will likely impact the bidding schedule.
We would like to have a deep understanding of TTD's system. Is it possible to attach a copy of your blocks, runs, and rosters to TTD's response to vendor questions?	TTD 's current system is not a good indication of the future system. One objective of procuring the software is to build a better functioning system.
Does TTD utilize an AVL software? If so, what AVL software is currently being utilized and how does current scheduling data get inputted into your AVL system?	Yes, Swiftly. Trillium Transit manages TTD's GTFS data and TTD management generally updates the information in Trillium's GTFS Manager.
Does TTD utilize a driver operations management software? If so, what driver operations management software is currently being utilized and how does current scheduling data get inputted into said software?	TTD uses The Reporting Solutions for some operations management and the contractor enters schedule changes.

TTD states that “the majority of vehicles are located at the TTD Corp Yard, 1669 Shop Street, South Lake Tahoe, CA 96150.” Where are the other vehicles located? Do any of your routes use more than one yard?	In the summer, some buses are stationed in Incline Village, NV for the East Shore Express summer service. In the future, buses may be charging over night at a location other than the Corp Yard.
Can TTD kindly explain in what situations a driver might switch buses during his/her shift?	Operators may switch buses due to mechanical problems or if road construction does not permit a large bus to pass. In the winter a bus might be exchanged for increased capacity or for 4WD capabilities.
How many times does TTD allow an operator to switch buses in one shift?	Switching buses is not an operator’s decision, it is a supervisor or dispatcher’s decision based on need, not preference.
Do TTD drivers bid on a cafeteria-style schedule (picking daily shifts) or a roster-style schedule (picking weekly shifts)?	Roster-style schedule
Do TTD drivers bid on work assignments that include both fixed route and non-fixed route work?	Sometimes
What is the maximum peak vehicle requirement for buses, excluding spares/relief vehicles/Supervisors’ SUV’s?	The maximum number of buses currently is 18 for the summer service; however, this will likely change when the service changes are adopted.
How does is the bidding process structured? Is it cafeteria bidding where operators assemble their own week of work, or Roster bidding where they bid on a pre-assembled weekly package of work?	Roster bidding.
The contract template attached to the RFP is for goods. Would you provide a contract template for services to accommodate a cloud-based scheduling solution?	Please see attached
The insurance requirements are unclear. Would you please make these more explicit? Specifically, what are the requirements for services and for on-site training?	Please see attached
Which AVL system is currently in use? How do you currently export scheduling data to this AVL system?	The AVL system is handled by Swiftly. Trillium Transit manages TTD’s GTFS data and automatically uploads the data.
Describe the tools and processes currently used to build shape files for the AVL system and for GTFS. Is this work currently done in the AVL system or in another application? How are these files currently exported to the AVL system and to Google?	Trillium Transit handles the export to Google and Swiftly
How many relief cars are utilized?	Up to four
Are relief times lined up so that drivers can carpool?	Not at this time
Do drivers sometimes walk from the garage to relief points?	This does not routinely occur, though it may with proposed service changes
When do the drivers take the bus network to get relieved?	This does not routinely occur, though it may with proposed service changes.
Can TTD kindly produce a list of all relief points and whether drivers can take meal breaks at these points?	This is under review, as we are proposing service changes.

The District may hold all invoices until the default is cured. If Contractor does not cure the default to District's satisfaction in the timeframe given, the District may take necessary steps to terminate this Agreement under Section 20 "Termination of Agreement." Any failure on the part of the District to give notice of the Contractor's default shall not be deemed to result in a waiver of the District's legal rights or any rights arising out of any provision of this Agreement.

SECTION 22. EXCUSABLE DELAYS.

Contractor shall not be liable for damages, including liquidated damages, if any, caused by delay in performance or failure to perform due to causes beyond the control of Contractor. Such causes include, but are not limited to, acts of God, acts of the public enemy, acts of federal, state or local governments, acts of District, court orders, fires, floods, epidemics, strikes, embargoes, and unusually severe weather. SECTION 27. AMENDMENT.

No amendment to or modification of this Agreement shall be valid unless made in writing and approved by the Contractor and by the District. The General Manager shall have the authority to approve any amendment to this Agreement if the total compensation under this Agreement, as amended, would not exceed the General Manager's contracting authority under the District's ordinances, rules and regulations. All other amendments shall be approved by the District's Board. The Parties agree that the requirement for written modifications cannot be waived and that any attempted waiver shall be void.

By written notice or order, District may, from time to time, order work suspension or make changes to the Services to be provided by Contractor. If any such work suspension or change causes an increase or decrease in the price of this Agreement or in the time required for its performance, or otherwise necessitates an amendment to this Agreement, Contractor shall promptly notify District thereof within ten (10) days after the change or work suspension is ordered, and an amendment to this Agreement shall be negotiated. However, nothing in this clause shall excuse Contractor from complying immediately with the notice or order issued by District.

SECTION 28. BINDING EFFECT.

This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the Parties.

SECTION 29. FEDERAL PROVISIONS. [CUT / MODIFY BASED ON FEDERAL MONEY INVOLVED IN EACH CONTRACT]

The Contractor agrees to include the requirements of this section in all subcontracts that may involve international air transportation.

15. [Applies to contracts involving experimental, developmental or research work]
Patent and Rights in Data

a. *Rights in Data*

- i. The term "subject data" used in this clause means recorded information, whether or not copyrighted, that is delivered or specified to be delivered under the contract. The term includes graphic or pictorial delineation in media such as drawings or photographs; text in specifications or related performance or design-type documents; machine forms such as punched cards, magnetic tape, or computer memory printouts; and information retained in computer memory. Examples include, but are not limited to: computer software, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications, and related information. The term "subject data" does not include financial reports, cost analyses, and similar information incidental to contract administration.
- ii. The following restrictions apply to all subject data first produced in the performance of the Agreement:
 1. Except for its own internal use, the District or Contractor may not publish or reproduce subject data in whole or in part, or in any manner or form, nor may the District or Contractor authorize others to do so, without the written consent of the Federal Government, until such time as the Federal Government may have either released or approved the release of such data to the public; this restriction on publication, however, does not apply to any contract with an academic institution.
 2. In accordance with 49 C.F.R. § 18.34 and 49 C.F.R. § 19.36, the Federal Government reserves a royalty-free, non-

exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for "Federal Government purposes," any subject data or copyright described in subsections (2)(b)1 and (2)(b)2 of this clause below. As used in the previous sentence, "for Federal Government purposes," means use only for the direct purposes of the Federal Government. Without the copyright owner's consent, the Federal Government may not extend its Federal license to any other party.

- a. Any subject data developed under this Agreement, whether or not a copyright has been obtained; and
 - b. Any rights of copyright purchased by the District or Contractor using Federal assistance in whole or in part provided by FTA.
3. When FTA awards Federal assistance for experimental, developmental, or research work, it is FTA's general intention to increase transportation knowledge available to the public, rather than to restrict the benefits resulting from the work to participants in that work. Therefore, unless FTA determines otherwise, the District and the Contractor performing experimental, developmental, or research work required by the Agreement agrees to permit FTA to make available to the public, either FTA's license in the copyright to any subject data developed in the course of the Agreement, or a copy of the subject data first produced under the contract for which a copyright has not been obtained. If the experimental, developmental, or research work, which is the subject of the Agreement, is not completed for any reason whatsoever, all data developed under the Agreement shall become subject data as defined in subsection (i) of this clause and shall be delivered as the Federal Government may direct. This subsection (iii), however, does not apply to adaptations of automatic data processing equipment or programs for the District or Contractor's use whose costs are financed in whole or in part with Federal assistance provided by FTA for transportation capital projects.
4. Unless prohibited by state law, upon request by the Federal Government, the District and the Contractor agree to indemnify, save, and hold harmless the Federal Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the District or Contractor of

proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under that contract. Neither the District nor the Contractor shall be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.

5. Nothing contained in this clause on rights in data shall imply a license to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Federal Government under any patent.
 6. Data developed by the District or Contractor and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by the Agreement is exempt from the requirements of subsections (2), (3), and (4) of this clause, provided that the District or Contractor identifies that data in writing at the time of delivery of the contract work.
 7. Unless FTA determines otherwise, the Contractor agrees to include these requirements in each subcontract for experimental, developmental, or research work financed in whole or in part with Federal assistance provided by FTA.
- iii. Unless the Federal Government later makes a contrary determination in writing, irrespective of the Contractor's status (i.e. , a large business, small business, state government or state instrumentality, local government, nonprofit organization, institution of higher education, individual, etc.), the District and the Contractor agree to take the necessary actions to provide, through FTA, those rights in that invention due the Federal Government as described in U.S. Department of Commerce regulations, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," 37 C.F.R. Part 401.
 - iv. The Contractor also agrees to include these requirements in each subcontract for experimental, developmental, or research work financed in whole or in part with Federal assistance provided by FTA.

b. *Patent Rights*

- i. General - If any invention, improvement, or discovery is conceived or first actually reduced to practice in the course of or under the Agreement, and that invention, improvement, or discovery is patentable under the laws of the United States of America or any foreign country, the District and Contractor agree to take actions

necessary to provide immediate notice and a detailed report to the party at a higher tier until FTA is ultimately notified.

- ii. Unless the Federal Government later makes a contrary determination in writing, irrespective of the Contractor's status (a large business, small business, state government or state instrumentality, local government, nonprofit organization, institution of higher education, individual), the District and the Contractor agree to take the necessary actions to provide, through FTA, those rights in that invention due the Federal Government as described in U.S. Department of Commerce regulations, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," 37 C.F.R. Part 401.
- iii. The Contractor also agrees to include the requirements of this clause in each subcontract for experimental, developmental, or research work financed in whole or in part with Federal assistance provided by FTA.

16. **[Applies to all contracts of \$25,000 or more]** Suspension and Debarment

- a. This Agreement is a covered transaction for purposes of 49 CFR Part 29. As such, the Contractor is required to verify that none of the Contractor, its principals, as defined at 49 CFR 29.995, or affiliates, as defined at 49 CFR 29.905, are excluded or disqualified as defined at 49 CFR 29.940 and 29.945.
- b. The Contractor is required to comply with 49 CFR 29, Subpart C and must include the requirement to comply with 49 CFR 29, Subpart C in any lower tier covered transaction it enters into.
